MOMMY, WHAT A YUMMY!

GEORGIA (*Sakartvelo*)

Country of Transcaucasia, at the eastern end of the Black Sea, situated in a highly strategic location in that it serves as an entry gate to the Caucasus and Central Asia. It is a reliable corridor for addressable flows between Caucasus and Europe and between Central Asia and Europe.

This concept is being based on historical Silk Road for centuries that gives Georgia a significant geopolitical role.

The recorded history of Georgia dates back more than 4,000 years. Over the centuries, Georgia has been a home for people of different cultural, ethnic and religious backgrounds.

The country has a unique and ancient cultural heritage and is famed for its traditions of hospitality and cuisine. Georgia's natural resources and various micro-climatic zones are perfect for producing a wide range of grains, vegetables, fruits, etc. Rich and pesticide-free soil is ideal for organic production.

In 2014, “Kakhetian Traditional Winemaking” has invested in construction of 2 new fruit processing facilities in Western Georgia. They were put into operation in September, 2015 under the **NENA** trademark.

NENA produces a wide range of fruit jams, compotes, nectars and sauces, including original Georgian plum sauce Tkemali and authentic hot Adjika. We also produce several varieties of high-quality natural honey.

We are proud with the high quality of fruits and vegetables grown in Georgia, and we always use 100% natural ingredients, harvested and processed by the local farmers.

NENA products do not contain antibiotics, pesticides, GMO or other substances prohibited in Georgia and EU.

We merge old family recipes with the new technologies to give our products perfect taste and keep all the benefits of freshly picked fruit.
